PROFILE

Frontend Engineer with 4+ years of experience building scalable, performant and maintainable user interfaces. Enterprise experience at Globant (Iberia Airlines) and product-focused development.

EXPERIENCE

- **Globant – Iberia Airlines** | Junior Web UI Developer (2023–2025)
Worked on booking and ancillary modules with direct revenue impact. Used React, Angular, TypeScript and Design Systems in Agile environment.
- **Freelance Frontend Developer** (2021–2023)
Built production-ready frontends and managed deployments using Docker, Nginx and Cloudflare.

PROJECTS

- **MagiNails**
Custom booking platform with step-based flow and WhatsApp automation. Focused on performance, UX clarity and local SEO.
- **DIES**
Scalable sneaker catalog built with SvelteKit and Supabase. Includes authentication, SSR and container-ready deployment. Developed an admin dashboard for product management and leads analytics.
- **Angular Portfolio SPA**
Standalone Angular application with lazy-loaded routing and modular structure, prepared for SSR and hydration.
